Copied the following code from HDP to fix the css issues in bdp sub-app.

Previously some of the home-details common css is overridden on BDP styles, So that UI shows up correctly in BDP

Issue: Now hdp css is not loading fine after we deploy the bdp sub-app.

So we are adding the same css in bdp to fix the styling issues.

compare schools, and should not be the only factor used in selecting the right
school for your family. Zillow and GreatSchools recommend that parents tour
multiple schools in-person to inform that choice. As of October 2020, the
GreatSchools Ratings methodology continues to move beyond proficiency and
standardized test scores. The latest methodology prioritizes student growth through
measures of equity and school quality.<!-- -->&nbsp;<a
